

BOARD SPOTLIGHT: ERIC TEMA

Recruited to the Assets School Board of Trustees in 2010 by the head of our facilities committee, Jill MacMillan, Eric Tema has been an integral part of making our lower and high school campuses what they are today.

Throughout his eight-year tenure on our Board, Eric has utilized his real estate experience to assist Paul Singer and other Board Members to acquire the lower school campus from the Navy, merge with AOP to acquire what is now the High School Campus, work on the renovation of the Young Building, and has been invaluable in the design, construction, and soon-to-be launch of the new Harry & Jeanette Weinberg K-4 Village.

Eric's passion stems from a desire to give back to the community and also in witnessing the change in a neighbor's child after switching to Assets School. He is often times the first to raise his paddle for 'call for donations' during our annual gala, which raises money for our tuition assistance program. When not seen climbing under buildings on campus, Eric can be found spending time with his wife, Jennifer, and their three children.
